

ACRYLSOFT PAC

Acrylsoft PAC is a concentrated softener with 100% active material, specifically for applications on fabrics and acrylic fiber yarns. It gives to the treated material an extremadately soft tact and full. It can be applied in cationic dyeing baths. It can be easily prepared fluid dispersions which can remain stable during suitable periods.

Acrylsoft PAC gives soft and full tact to yarns and acrilic fiber fabrics; it is easily soluble to make stable solutions and compatible with no ionic and cationic auxiliaries used in dyeing of acrylic fiber.

Acrylsoft PAC does not affect the fastness of dyestuffs neither cause changes shade of dyed materials. Furthermore it gives anti-soiling properties to acrylic fiber materials and it does not have retardant effect of the dyestuff, when is applied in the dyeing bath of acrylic fibers with cationic dyestuffs.

Properties

<i>Appearance:</i>	Yellowish creamy liquid.
<i>Odor:</i>	Odorless
<i>Solubility in water:</i>	Miscible
<i>Ionic character:</i>	Cationic

Applications

- Textile Industry
 - Acrylic

Packaging and Storage

Acrylsoft PAC is not classified as hazardous. This product should be stored in fresh areas with temperatures not lower than 10°C. Keep away from foodstuffs.

Packing: 200 Kg. high density polyethylene drums.
